

Bangor South - Breed or Background

Redford Road
Mungallala QLD

Please Note: Bidder number 1 is acting as a representative to the vendor of this property. Bangor South, located 20 radial kilometres North of Mungallala, has an excellent body of feed following recent rainfall and covers 2070.43 Hectares of bottle tree, brigalow, mulga and poplar box woodlands. Bangor South is comprised of over 90% white on the vegetation map, allowing for both mechanical and chemical treatment of regrowth to be conducted when applicable. The property has an exclusion fence surrounding part of the property with the northern boundary fenced by the wild dog barrier fence. The central yards sit alongside a significant dam that is equipped to extract water to a 450,000 litre ring tank that gravity-feeds to various water points across the property. The property also features cattle yards which are of steel construction with branding cradle and covered in crush.
